PHASE 5

Phase 5: Project Development Phase

Global Olympic Sports Performance Analysis

Goal

Clean the data, connect it to Tableau, and build the charts and dashboards.

What we do in this phase

- Clean the data: handle empty medal values and remove duplicates
- Standardize country, sport and event names
- Connect the cleaned CSV to Tableau Public
- Build the medal, country, sport and trend charts
- Combine the charts into interactive dashboards

Deliverable

Working Tableau dashboards
